LEASING

Leasing is a great way to ease into horse ownership without the full responsibility. Students have access to horse several days week depending on their lease agreement and can experience the bond that comes with working with the same animal on a regular basis. Leasing allows the student to practice their skills on their own and reserves that horse for their weekly scheduled lesson. Students who lease can spend quality time with their horse the remainder of the week. PRF provides all tack, vet and farrier care and supplies for the horse. Lease options are offered only to those in our program full time, and horse and rider will be matched appropriately. Student must be able to safely handle, groom, tack and walk/trot on their own to lease. We suggest leasing to all our Pony Club participants.
